The newest U.P. hot spot, the Greenlight Lounge, is IN and all kewl pple know it. For a good time watching local thespians and magickal pple, come to

The Greenlight Lounge
Phone: 906-523-4417
22095 7th St
Chassell, MI 49916

Be sure to bring yer cents of humor with you.

Instead of karaoke, the Greenlight has a thespian showcase ever Saturday nite at 11 pm sharp. Each year they have a different theme for the showcase, and this year the theme is Native American berdaches and their customs and costumes. Right now, the thespian who has won the last five showcases is Mr. Morkie, and so he is Greenlight's reigning champion and the one to beat.

Besides that, the Greenlight has an enema room with its own beer keg and floor drain so that you can enjoy beer yer own way. This is a feature to be found in no other U.P. bar.

We have fun, fun, fun, fun, fun ever Saturday night, so put on yer leotards and get to stepping. Be thier or be square.

Interesting. The Romans occupied nearly all of the Western world at the
time, yet they didn't murder and drive off any of the rest of their subject
populations. Would you care to comment on why so many (nearly all?) European
countries at some point independantly of each other wanted their Jewish
residents to relocate? Lots of subject peoples rebelled against Roman rule,
but they didn't suffer deportation as a result. Of course, most of them were
in their own ancestral lands.

He will have to answer to God and Roger.

May God rest Mark's sad, tortured soul.

So the borders of Palestine just happen to coincide with the

In the 1920's a radio station in Schenectady, NY built a powerful transmitter. In those days before FCC regulations, not knowing just how big to make a transmitter in order for the signal to be received some distance away, the station set up to broadcast at 500,000 watts. It requires about one watt to be received four blocks away. This station broadcast at such tremendous power that they could be heard around the world. People in New York didn't even need radios. They could sometimes hear voices in their furnaces and coming off chain-link fences. Light bulbs lit up in people's houses even if they were switched off. - from www.odd-info.com

2739. PN QSO party

Newsgroup: rec.radio.amateur.policy
Date: 2007-09-23 19:46:37 UTC
From: Mark@TayleorRobesin.org
Message-ID: <kkgdf31nkddqbehe9gph3gb540fbq4n1af@4ax.com>

Good day all

The Pennsylvania QSO Party is being held October 13 and 14, 2007.

The Pennsylvania QSO Party is celebrating it's 50th anniversary as the
Friendly QSO Party.

A number of changes have been made to the party this year.

As usual Pennsylvania Ops work PA Counties, ARRL and VE sections, and
DX. Out of state Ops work PA Counties. Counties and sections earn
multipliers. Available modes are CW, SSB and FM, PSK 31 and RTTY.

CW Contacts are worth 2 points per QSO on 80 meters and 160 meters,
and
1.5 points on 40 and above.

RTTY and PSK contacts are worth 2 points each.

SSB and FM contacts are worth 1 point each.

Contact with the Special Event station is worth 200 points.

Double score for QRP.

Mobile stations earn 500 point bonus for each county.
see rules for details.

Rover Stations earn 500 point bonus for each Operating position
see rules for details.

Certificates for all county and section winners, plaques for class
winners.

For those not familiar with the PAQSO Party, a lot more info can be
found at:

http://www.nittany-arc.net/paqso.html

Changes:

The PSK31 and RTTY classes tried as an experiment last year, are now
included as a regular part of the party.

The rules have been greatly expanded due to popular demand. Instead of
a
one page rule sheet, we have added definitions and clarifications
where
needed. While the rules of the party are more or less the same as last

year, the bands of operation have been defined, classes have been defined, and a few other tweaks have been added. County line station qualifications have been defined.

We have added a few new plaque classes.

A 20 meter "Good Neighbor" plaque has been added to encourage PA operators to get on 20 meters and operate more Out of State Ops.

An SSB only plaque has been added to complement the CW only plaque

A new class has been added - Multi Op Multi Transmitter Portable. This corrects a weird rule situation in which people who wanted to operate at
say a camp with several friends and a couple transmitters had to either
operate as a one location rover or could operate as a portable, but not
compete Since MM portable sounds like one major lot of fun, it was the least we could do.

The club award has been reinstated. Sum the scores from OPs in your club
and highest count wins. Trophy for first place, second through fifth get
certificates.

The extension of the rules prompted another change.

Since the rules changes brought the rules to 8 pages, and that would double the size of the party mailings, it was decided to eliminate the mailings. Results and announcements are taking place via PDF file. In addition, this will enable the party results to come out much sooner than before. Given the universality of Adobe Reader these days, this should end up as a very positive change. The pdf's will be emailed out to recent party participants, or they can be downloaded from the Web site at:

http://www.nittany-arc.net/paqso.html

Certificates will still be printed and mailed by the party committee.

In order to ensure more rapid and accurate delivery of party promotional
items, a T-Shirt Czar is being appointed so that that part of the post party work is accomplished in tandem with the scoring. There will be a special and new design 50th anniversary T-Shirt this year, as well as new design Coffee Mugs.

We are having a different special event station this year. There will be
5 stations distributed in the state operating under the W3P special event call sign. One of the stations will be in mobile operation, and the others will be in fixed position.

A 50th Anniversary certificate will be sent to stations who make
contact
with all 5 Special event stations. To qualify, work all 5 stations,
and
send a SASE to:

PAQSO Party 2007 c/o NARC
P.O. Box 614
State College PA 16804-0614

For the future.......

In 2009, the 1.5 point CW QSOs are going away. At that point, all CW
QSOs will be worth 2 points.

County line stations point value will be revisited in the off season.
We
will possibly be giving out 1 QSO point per claimed county, instead of
1
QSO for the entire communication.

2760. Penn qso party

Newsgroup: rec.radio.amateur.policy
Date: 2007-09-23 21:23:00 UTC
From: Mark@TayleorRobesin.org
Message-ID: <k1mdf3hob8ujuck3auag9ukrk9cf56ud82@4ax.com>

Good day all

The Pennsylvania QSO Party is being held October 13 and 14, 2007.

The Pennsylvania QSO Party is celebrating it's 50th anniversary as the
Friendly QSO Party.

A number of changes have been made to the party this year.

As usual Pennsylvania Ops work PA Counties, ARRL and VE sections, and
DX. Out of state Ops work PA Counties. Counties and sections earn
multipliers. Available modes are CW, SSB and FM, PSK 31 and RTTY.

CW Contacts are worth 2 points per QSO on 80 meters and 160 meters,
and
1.5 points on 40 and above.

RTTY and PSK contacts are worth 2 points each.

SSB and FM contacts are worth 1 point each.

Contact with the Special Event station is worth 200 points.

Double score for QRP.

Mobile stations earn 500 point bonus for each county.
see rules for details.

Rover Stations earn 500 point bonus for each Operating position
see rules for details.

Certificates for all county and section winners, plaques for class
winners.

For those not familiar with the PAQSO Party, a lot more info can be
found at:

http://www.nittany-arc.net/paqso.html

Changes:

The PSK31 and RTTY classes tried as an experiment last year, are now
included as a regular part of the party.

The rules have been greatly expanded due to popular demand. Instead of
a
one page rule sheet, we have added definitions and clarifications
where
needed. While the rules of the party are more or less the same as last

year, the bands of operation have been defined, classes have been defined, and a few other tweaks have been added. County line station qualifications have been defined.

We have added a few new plaque classes.

A 20 meter "Good Neighbor" plaque has been added to encourage PA operators to get on 20 meters and operate more Out of State Ops.

An SSB only plaque has been added to complement the CW only plaque

A new class has been added - Multi Op Multi Transmitter Portable. This corrects a weird rule situation in which people who wanted to operate at
say a camp with several friends and a couple transmitters had to either
operate as a one location rover or could operate as a portable, but not
compete Since MM portable sounds like one major lot of fun, it was the least we could do.

The club award has been reinstated. Sum the scores from OPs in your club
and highest count wins. Trophy for first place, second through fifth get
certificates.

The extension of the rules prompted another change.

Since the rules changes brought the rules to 8 pages, and that would double the size of the party mailings, it was decided to eliminate the mailings. Results and announcements are taking place via PDF file. In addition, this will enable the party results to come out much sooner than before. Given the universality of Adobe Reader these days, this should end up as a very positive change. The pdf's will be emailed out to recent party participants, or they can be downloaded from the Web site at:

http://www.nittany-arc.net/paqso.html

Certificates will still be printed and mailed by the party committee.

In order to ensure more rapid and accurate delivery of party promotional
items, a T-Shirt Czar is being appointed so that that part of the post party work is accomplished in tandem with the scoring. There will be a special and new design 50th anniversary T-Shirt this year, as well as new design Coffee Mugs.

We are having a different special event station this year. There will be
5 stations distributed in the state operating under the W3P special event call sign. One of the stations will be in mobile operation, and the others will be in fixed position.

A 50th Anniversary certificate will be sent to stations who make
contact
with all 5 Special event stations. To qualify, work all 5 stations,
and
send a SASE to:

PAQSO Party 2007 c/o NARC
P.O. Box 614
State College PA 16804-0614

For the future.....

In 2009, the 1.5 point CW QSOs are going away. At that point, all CW
QSOs will be worth 2 points.

County line stations point value will be revisited in the off season.
We
will possibly be giving out 1 QSO point per claimed county, instead of
1
QSO for the entire communication.

Except it isn't true, the first 500,000 watt station was WLW in
Cincinnati Ohio, owned by Powel Crosley Jr. It went on the air at
500KW in 1935.

You don't need a super power TX to create this kind of chaos. At KOEL, we were a 5kw regional with the major lobe squirting the power north. Off the north end of the site, close enough that the guy ran right to the fence, and on the other side, a developer built a high end subdivision. Well, high end for that area. And the first house was less than 50 feet from the fence.

About once a month we had to go out and detune refrigerators, water pipes, bathtubs, toasters and especially the chain link fence...all of which were making quite audible music from our transmitter.

The biggest problem we had was with the house by the fence. The owner had cleaned up the garage and put in flourescent lighting....that he couldn't turn off.

He had to remove the tubes in order to get dark in his garage.

Night was no better. The pattern was less than 5 degrees wide, concentrating on a few houses adjacent to the property. We got calls almost every night.

His own Republicans ridiculed the lush McClellan. As for Communists the SU
is long gone and hopefully North Korea and the others will become
democratic.

Hmmm - that title sounds a bit like the first Twilight Zone episode!

Since the new moderated group was created (whose mission was to improve communication and raise the bar on decency over the Policy group), everyone seems to have disappeared. The moderated group is virtually dead, containing primarily bulletins from Amateur groups around the world and the odd post hare and there....and the Policy group has degenerated into a "Mark vs the World" quagmire - quite unfortunately for Mark.

With the exception of Dave Heil, who pops up from behind the ramparts here occasionally to take a well placed shot at his old nemesis Mr. Wiseman, no one seems to be left from the old crowd who regularly discoursed in this group. Even N2EY's regular "ARS Numbers" posts seem to have vanished into oblivion.

Just wondering - what's up with Len, Mike,Dave, Jim, Brian, Steve, Dee, Kim, and the rest of the old regulars on the group? Hope all is well!

I'm here. I'm not interested in .moderated.

I do post some on-topic stuff, but no one wants to discuss it. For example, the ARRL gets it's own MARS call:

ARRL Receives MARS Call Sign
The ARRL now has a new Emergency Communications tool in its toolbox -- MARS call sign AAN1ARL. According to W1AW Station Manager Joe Carcia, NJ1Q, "The call sign was requested to reflect both the holder of the license (ARRL) and the various MARS services (Army, Air Force and Navy)."

The MARS station will be housed at W1AW, the Hiram Percy Maxim Memorial Station. ARRL Emergency Preparedness and Response Manager Dennis Dura, K2DCD, said, "The establishment of an Army MARS call sign for W1AW begins a relationship with the Military Affiliate Radio System and the ARRL. Our two organizations are working toward the near-term establishment of a Memorandum of Understanding. Additionally, the League and MARS will utilize each other's personnel and technical capabilities to further enhance our emergency preparedness and response capabilities."

The MARS program consists of licensed Amateur Radio operators who are interested in military communications on a local, national and international basis as an adjunct to normal communications. MARS has a long and proud history of providing worldwide auxiliary emergency communications during times of need. The combined three service MARS programs (Army, Air Force, and Navy-Marine Corps) volunteer force of more than 5000 dedicated and skilled Amateur Radio operators is the backbone of the MARS program. There are Army MARS stations in Japan, Korea, Hawaii, Panama, the Virgin Islands, Puerto Rico, Alaska, Central America, Africa, Germany and the continental United States. MARS responders operate on specially assigned military radio frequencies in voice, teletype and packet modes of communications.

Besides, it seems that policy was not an interest, it was just a "stated ruse" to allow the CW Proclaimers to have voice and attempt to maintain control.

Hmmm - that title sounds a bit like the first Twilight Zone episode!

Since the new moderated group was created (whose mission was to
improve communication and raise the bar on decency over the Policy
group), everyone seems to have disappeared. The moderated group is
virtually dead, containing primarily bulletins from Amateur groups
around the world and the odd post hare and there....and the Policy
group has degenerated into a "Mark vs the World" quagmire - quite
unfortunately for Mark.

With the exception of Dave Heil, who pops up from behind the ramparts
here occasionally to take a well placed shot at his old nemesis Mr.
Wiseman, no one seems to be left from the old crowd who regularly
discoursed in this group. Even N2EY's regular "ARS Numbers" posts
seem to have vanished into oblivion.

Just wondering - what's up with Len, Mike,Dave, Jim, Brian, Steve,
Dee, Kim, and the rest of the old regulars on the group? Hope all is

Mr. Wannabee Tough Guy (aka dxAce) is at:

Steven R. Lare
824 West 25th St.,
Holland, MI 49423

Surely at LEAST one of the many men he has insulted and attacked while hiding behind his computer screen will be delighted to know his exact location.

Good luck. :)

Good question. Do you think they are just callsign collecting, or do
you think they knowingly placed themselves into DoD service?

Sadly they grew upset that folks who weren't code advocates found a
voice on policy, so they created a moderated group to exclude the no-
coders. After the initial back-slapping, they found that they didn't
have much to say to each other.

In all reality, despite your claims otherwise, they formed the moderated
group mainly in response to Mark Morgan's hundreds upon hundreds of inane
posts that were more of a pestilence than a welcome addition to this group.
Mark is THE primary culprit, with one or two others bringing up a very
distant second and third place.
Your spin stops here.

BTW. Did you "reign" as in dominating power? Or "rein" as in any means of
curbing or controlling?
Mark would certainly fit the latter definition.

Then you admit that you flamed. You were told time after time that your floods were not welcome and were poor net practices, but you persisted to the point that a moderated group was formed to KEEP YOU OUT!

Funny. Nowhere in my response did I mention "owger" or "gaybashing", you did, and do...to the point of nausea. You've worn that tired excuse out. I "eneged" in nothing of the sort, though I AM an unabashed Mark Morgan basher. For that I make no apologies, nor are any needed.
A guilty conscience needs no accusing.

Yes, it worked out. A new, moderated group was formed because of your
unneeded transgressions.

You, Mark, are truly dysfunctional in every sense of the word.
Your multitude of inane per diem posts are not your fault, are they?

Let's see. You blame Roger for your first 100 posts of the day, even tho Roger (or "owger" as you misspell it) posts perhaps six or eight times. Then you blame Steve for your next round of 100 posts or more, despite the fact that Steve has not posted here in weeks. Oh, and your synchophants such as Hot Spam and Sleaze troll right along with you while conveniently ignoring the fact that YOU are the root of the problem.

And when you become bored, and when nobody responds to your tripe, you travel backwards in time and dredge up two and three year old posts that you use to flame this group with. Apparently, in your lackluster life, those old posts must seem like yesterday to you. Obviously there is little going on in your neck of the woods if your only recourse is to drag old arguments from the mothballs.

Small wonder, Mark, that you have been banned from moderated chat groups.
Look in the mirror.

Nope, go back and read the archives. The cronies originally put forth
the idea of a moderated group to exclude non-amateurs from having a
voice in an amateur newsgroup. That's where the idea come from. They

discovered it was "too hard" so one of the cronies proposed that he would make a BBS. He decided that was "too hard." So they sat on their duffs until someone else came along and did the hard work. Morse Code is truly their only claim to fame.

You'll have to go back up the chain and ask "assembly whiz" or whoever wrote that.

Regardless, Robesin was the catalyst for most of the bad behavio[u]r on rrap. If he had apologized for mining the web and bringing back non-amateur related information to policy, and his incessant outrageous claims and accusations.... He's a bad citizen no matter what neighborhood he pops in to.

As despicable as many of Mark's posting were and are, they were the
only means available to counter the incessant heinous attacks he
suffered at the hands of Robesin, Wiseman, with the nod from the
cronies. Unfortunately, Mark's postings were necessary.

That's the way I see it, too.

Everyone posts something off topic at some time or another, but a
select few incessantly posted objectional, despicable material.

That's been covered ad infinitum.

Anyway, Robesin is mostly absent from RRAP which is a good thing. If
only the cronies had suggested that he cool it with his incessant homo-
erotic attacks. Hell everything from Morse Code to Military Service
to MARS was attack material for that jerk...

I suspect the reason why the .moderated group is dead is due to the 'standards' the moderators have decided to implement.

For example, I was recently banned from the .moderated group.

My "crime"? I had 3 rejected postings in a period of 4 months.

Now, I was a staunch supporter of the .moderated group (and still believe a moderated group is a good thing.) I carefully went back and reviewed all the discussion on the group creation, and didn't see anywhere that such silly standards would be used. As the previous moderator of biz.sco.sources in the mid 90's, I would have thought such quantitative standards were outright silly.

Over the years, I have participated in many moderated groups, comp.dcom.telecom being one I used extensively in the mid 90's when Pat Townsend(sp?) was the moderator. I can't count the number of rejected postings I've had from .telecom. Dozens. Yet, I never got any silly email from him telling me I was "banned". Instead, my messages were either rejected or simply never showed up. No big deal. That's his job, as moderator. To steer the discussion. If my comments didn't with within the discussion, it was his right to reject them.

I actually laughed out loud when I got the email telling me I was suspended from .moderated on the basis of having 3 rejected postings over a 4 month period. I don't know who created that idea, but that's some serious anal-retentive tendencies there.

The most disturbing part of the entire episode is none of these 'standards' were discussed up front. How many months have to go by before one of the rejected postings falls off the list? What happens if you have 3 rejected postings in 6 months? 12 months? 5 years? Do you still get banned if you have 3 rejected postings over a 10 year period?

So, the reality is they are simply arbitrary ways for the moderators to squash those with dissenting opinion.

No biggie, really. This summer I had to build a new barn, and right now I'm in the process of rehabbing the single-pane windows in my 300 year old

ranch. Then I have to build wooden storm windows, and crawl into the attic and insulate. All before winter hits. I check in here maybe once every 2 to 3 weeks. Moderated even less.

I think most people have moved on to bigger and better things. Why spend time here when you can be operating on the air?

This forum has become a quagmire, pretty much singlehandedly at the hands of the Mark Morgan, who somehow feels he has to spew a response to each and every message someone posts, including his own, proclaiming he is a victim (watch, he will feel compelled to respond to this posting as well, much like Pavlov's dog.)

I'm surprised it took that long. He was probably busy flaming the Nim

That's just weird.

When your posts were rejected, were you advised of the specific reason for rejection? Given an opportunity to explain, or revise the offending post? And where was the 'three strikes' rule documented - I read over the charter just after the group was established, and I don't recall that being stated.

I'm all for moderated groups, normally - they provide valuable filtering of off-topic and malicious posts. And I agree with you - if the moderators are practising abject censorship instead of moderation, then it becomes a forum consisting only of those who share similar thoughts of what is appropriate and what is not. In other words, a closed group.

No thanks. I'd rather that I remain the judge of what I believe to be appropriate, rather than delegate that task to a group of net nannies!

No it was not created to keep no-coders out. Anyone who is polite can
easily join and participate in the moderated group regardless of their
opinions on code. In this group it was impossible to hold any sort of
polite discussion with anyone. Here, every attempt at a discussion was
eventually diverted into either personal attacks or a sex discussion, etc.,
none of which I have any interest in.

I have set up filters for this newsgroup to keep out the worst of it. I
find that after filtering all the objectionable material, there is little to
nothing happening on rrap most days. Many days I receive absolutely no
messages from this group due to that filtering. The list shows tens of

postings actually made but none get downloaded.

Normally I would agree with you. However, I got really tired of having to create new filters on a nearly daily basis to eliminate the hundreds of posts that flooded this news group on a regular basis. Those posts had nothing to do with policy and everything to do with personal wars. It was impossible to carry on any type of discussion without it being hijacked or turned into personal attacks. Even now, only a handful of posts make it through the filters.

There's no particular virtue in staying in the swamp.

Mike, I figured you were one of the "IN" crowd. Regardless, the idea
would have turned out badly as it meant too much to the Codies.

Dee, I've never filtered anyone. I either read them or I don't.

You CW buffs claim you can copy a single signal out of a pile-up, so
why do you bother with rrap filters?

You're telling me.

Yes, I was. One rejected posting I had actually intended to be sent to the moderators (who saw it anyway) so I saw no reason to resubmit it. Others, I simply opted not to change my comments, due to the timeliness of the discussion or what not. I bounced my offending posts off a friend of mine, who thought while my rhetoric was a little strong, my posts were not offensive in any way. (He's absolutely right -- I have strongly held opinions on subjects, and am not afraid to express them.)

It isn't stated anywhere. I never heard of it until I received the "you are suspended" email.

> I'm all for moderated groups, normally - they provide valuable
> filtering of off-topic and malicious posts.

Yes, exactly. .telecom is an excellent example of that, back in the 90's. I haven't read it in years (I'm pretty much out of the telecom segment these days) but in all the time I participated in that forum, I can't say Pat was ever unfair in his moderation practices. Of course, he rejected dozens of my postings, but I never experienced any silly bans.

It is silly, really. Anyone with any net.knowledge can have an unlimited number of names, IP addresses, etc. There's really no way to "ban" someone. I could still be posting there today, if I really wanted to.

Mark comes in first due to the pure volume of his flames.
Roger comes in a distant second due to the filth in his flames.

Mark cannot spell, and Roger cannot post without using gutter slang.

So there you have it. Two misfits screwing up RRAP.

Many people who are part of the No-Code Agenda have problems posting there. (You can identify a member of the No-Code Agenda by their rabid hatred of anything that even remotely has to do with morse code or operating CW). This is generally due to the fact that they are unable to conduct themselves in an appropriate manner without resorting to vulgarity, ad hominem attacks, etc. These folks are very much akin to the rabid liberal Bush-haters, to draw an analogy which some folks may be able to relate to.

The newest U.P. hot spot, the Greenlight Lounge, is IN and all kewl pple know it. For a good time watching local thespians and magickal pple, come to

The Greenlight Lounge
Phone: 906-523-4417
22095 7th St
Chassell, MI 49916

Be sure to bring yer cents of humor with you.

Instead of karaoke, the Greenlight has a thespian showcase ever Saturday nite at 11 pm sharp. Each year they have a different theme for the showcase, and this year the theme is Native American berdaches and their customs and costumes. Right now, the thespian who has won the last seven showcases is Mr. Morkie, and so he is Greenlight's reigning champion and the one to beat.

Besides that, the Greenlight has an enema room with its own beer keg and floor drain so that you can enjoy beer yer own way. This is a feature to be found in no other U.P. bar.

We have fun, fun, fun, fun, fun ever Saturday night, so put on yer leotards and get to stepping. Be thier or be square.

Well one of the very vehment no-coders by the name of Len Anderson has
absolutely no trouble posting there. These days he shows up only
occasionally but does post from time to time. Perhaps he is busy enjoying
ham radio. I hope so.

Notice how quickly others (NOT you) have dragged this thread into the gutter? Why should I tolerate that? I refuse to allow myself to be treated that way.

Why should I take the time and trouble to have to skim the "From" column when the computer can do it automatically for me? It's much more efficient to filter out the garbage in the first place that to sort through it afterwards.

> Army MARS Chief Stuart S. Carter, AAA9A, has invited the ARRL and Amateur Radio representatives to join a Military Affiliate Radio System (MARS) demonstration outside the Capitol building in Washington, DC on October 3. Hams around the country are asked to aid in the demonstration by making HF contacts during the day. With help from Laura Abshire, Legislative Aide to Representative Mike Ross, WD5DVR (D-AR), Tricia Russell, Legislative Aide to Representative Steve Israel (D-NY), and coordination of the myriad details by "Pudge" Forrester, W4LTX, Systems Administrator for Representative Roscoe Bartlett (R-MD), the "show" is set for next Wednesday, and hams around the country can help.

Naturally. All my postings are 100% factually accurate.

Not quite sure what this means.

I stated something is technically feasible. I didn't state I supported one way or the other if someone did or didn't do it.

Robesin thought that even though I said the same things in the same
way and in the same language that I was somehow trying to "trick" him
with my new throwaway email addy. What a moron.

Welp, I just checked hot-ham's email box and there are hundreds of:
"PAYPAL" phishing expeditions, I just won the Australian Lottery, the
British Lottery, Russian girls that want to meet me, Viagara, Longer
weenie medicine, and untold spam that I have no interest in seeing.

Hmmmm? I wonder if Larry tRolls old Russian girlfriend is trying to
reach me? Or did he marry her? Maybe he married her and she's still
trying to reach me?

They have no need for a "work-around." They are probably posting
sticky sweet garbage that passes through with flying colors.

Good point, Dee - I haven't seen an intellectual post in this group
for a long time - which is why I posed the "Where Is Everybody?"
question.

The moderated group seems to be almost equally dead - no noise floor,
but not much signal either!

73, Leo

Well with the change in the FCC rules regarding code testing, that issue is
now settled so that there are no "hot" topics at this point in time.
However, there are generally several posts a week but it's not nearly as
busy with no major issues happening right now.

3345. THINGS YOU NEVER KNEW YOUR CELL PHONE COULD DO.

Newsgroup: rec.radio.amateur.policy
Date: 2007-09-30 18:09:28 UTC
From: John Doe <hgorden@adelphia.net>
Message-ID: <0sGdnWHves-ie2LbnZ2dnUVZ_tijnZ2d@comcast.com>
Source record: 198283

There are a few things that can be done in times of grave emergencies. Your mobile phone can actually be a life saver or an emergency tool for survival.

Check out the things that you can do with it:

FIRST Subject: Emergency

The Emergency Number worldwide for Mobile is 112. (Mostly in Europe - but may transfer to 911 here in the states). If you find yourself out of the coverage area of your mobile network and there is an emergency, dial 112 and the mobile will search any existing network to establish the emergency number for you, and interestingly this number 112 can be dialed even if the keypad is locked Try it out.

SECOND Subject: Have you locked your keys in the car.

Does your car have remote keyless entry? This may come in handy someday. Good reason to own a cell phone: If you lock your keys in the car and the spare keys are at home, call someone at home on their cell phone from your cell phone. Hold your cell phone about a foot from your car door and have the person at your home press the unlock button, holding it near the mobile phone on their end. Your car will unlock. Saves someone from having to drive your keys to you. Distance is no object. You could be hundreds of miles away, as long as you can reach someone who has the other "remote" for your car, you can unlock the doors (or the trunk).

THIRD Subject: Hidden Battery Power

Imagine your cell battery is very low. To activate, press the keys *3370# Your cell will restart with this reserve and the instrument will show a 50% increase in battery. This reserve will get charged when you charge your cell next time.

FOURTH Subject: How to disable a STOLEN mobile phone?

To check your Mobile phone's serial number, key in the following (5) digits on your phone: * # 0 6 # A 15 digit code will appear on the screen. This number is unique to your handset. Write it down and keep it somewhere safe. When your phone gets stolen, you can phone your service provider and give them this code. They will then be able to block your handset so even if the thief changes the SIM card, your phone will be totally useless. You probably won't get your phone back, but at least you know that whoever stole it can't use/sell it either. If everybody does this, there would be no point in people stealing mobile phones.

FIFTH Subject: Cell phone companies are charging us $1.00 to $1.75 or more for 411 information calls when they don't have to.

Most of us do not carry a telephone directory in our vehicle, which makes this situation even more of a problem. When you need to use the 411 information option, simply dial: (800) FREE 411, or (800) 373-3411 without incurring any charge.

SIXTH Subject: ICE

Also, emergency services now look for your emergency contact information on your cell phone. Program in ICE (In Case of Emergency) and add your contact information. You may have several entries such as: ICE Home, ICE Office, ICE Husband, ICE Parents, etc. Program this into your cell phone now.

This is the kind of information people don't mind receiving, so pass it on to your family and friends.

I would like to join in. I actually like 70cm because the 1/4 wave
antenna is the same length as my dick and can sit on the antenna (up
my ass) and get a charge of HOT RF using a high power KLM amplifier
which allows me to shoot a really BIG load.

Not only is Mark banned from QRZ, he is now banned from the Nimbusters
Ham Radio Board. Roger and another unknown party put Mark into such a
flooding frenzy last night, the Admin has banned Mark.
Bwahahahahah....unfortunately Mark will turn his tide of dribble onto

Not that I'm a Zionist or anything, but yes, this hateful bastard needs at
the very least a very large boot up his ass.

If I start killfiling all the nitwits in uselessnetland, I'll be at it
all day and night for the next 2 years at least.

The other option is to just ignore the crap...based on title and
poster pseudonym.

Unfortunately, my estimation of the general intelligence of humans has
plummeted drastically since I've signed on with giganews. Most people
are less intelligent than dead tree stumps. It is amazing to me that
so many of them survive.

Otoh, earthworms ALSO survive in large numbers, and I'm not waiting
for a cure for Cancer to come from them either.

So I guess intelligence isn't a requisite for survival, as been so
aptly demonstrated in these newsgroups and Nature herself.

Unmoderated, low-culture pseudo-anonymous discussion with no
consequences - It brings a sloped forehead to every participant. The
internet is unnatural. You throw yourself in with people, many of
whom, you would normally segregate yourself from in the non-digital

world and they from you. If they are not "idiots" they become so and seem so.

the counter-replies to this post have been altogether remarkable:

===
"I'm sure most of the islamic world would agree with you.
Why don't you move to an islamic state?"
===

===
"A "spamgorumet" bogus address, posting through an open proxy.

are you guys so stupid that you are proving the point you are fighting
against?

no facts, no arguments to reply to the post's arguments, just threats,
ad hominems and other irrelevant and stupid marks of hostility.

what was the topic again? that zionists are bullies? lol

thanks.

Take it easy man...watch your blood pressure. This is a discussion of
some issues that is all it is. Some people took advantage of your
absence and now you're angry. Well, OK then. Get it out of your
system. But don't blame people in other newsgroups that were SPAMMED
by these nitwits to take back anything they said.

Now try to relax and have a happy day today, alright? Do it for me.
Today is my 62nd birthday and you're invited to the party. The only
gift you need to bring is a smile on your face.

Shalom

You are a disgrace to your religion, and to humanity in general.

You keep posting your constant crappy "quote", which if you were going to "quote it - it should be done correctly given full credit"!

You are constantly blaming someone named "WOGER" for spamming the NG, and I only see your spamming posts, not his!!! (NO - I don't have him blocked)

You need to get a life and stop annoying everybody with your childish garbage!

The newest U.P. hot spot, the Greenlight Lounge, is IN and all kewl pple know it. For a good time watching local thespians and magickal pple, come to

The Greenlight Lounge
Phone: 906-523-4417
22095 7th St
Chassell, MI 49916

Be sure to bring yer cents of humor with you.

Instead of karaoke, the Greenlight has a thespian showcase ever Saturday nite at 11 pm sharp. Each year they have a different theme for the showcase, and this year the theme is Native American berdaches and their customs and costumes. Right now, the thespian who has won the last seven showcases is Mr. Morkie, and so he is Greenlight's reigning champion and the one to beat.

Besides that, the Greenlight has an enema room with its own beer keg and floor drain so that you can enjoy beer yer own way. This is a feature to be found in no other U.P. bar.

We have fun, fun, fun, fun, fun ever Saturday night, so put on yer leotards and get to stepping. Be thier or be square.

3652. I've been absent too long.

I see that I've been absent for far too long. I may have to get involved and take steps to get
Roger booted from yet another account.
In the past, Pam Hoffer booted Roger from his Ovis account within one day of receiving the snail mail I sent her of Roger's filthy comments. I was also instrumental in getting him booted from his pre Ovis account. I struck twice, and succeeded in getting Roger booted twice. Part of my letter is below.

"It may interest you to know that Mr. Wiseman used to have an account with Ovis.net, run by a Pam Hoffer. Mr. Wiseman had his Ovis account canceled just prior to signing on with you. The reason he was canceled from Ovis and the provider before that was because of his extremely filthy language and personal abuse of several users, including but not limited to Mr. Davies. Roger even had some very foul things to say about Ms. Hoffer and when she read what he said his Ovis account was canceled the very next day."

What did Roger say, you ask? Well, to be mild, he accused Ms. Hoffer of having an alleged sexual affair with a non-existent black man who was supposedly in her employ at the time. I'm sure there are users hereabouts who can find his direct quotes and who will probably post them for us to see.

I am rather proud of the fact that I was instrumental in giving Roger the proverbial "boot". Of course I must give credit where credit is due, and I am thankful to Stagger Lee who contributed so much by archiving Roger's filthy diatribes.

We succeeded in that we forced Roger to go "underground" and for a long while he posted via proxy servers or through multiple forwarding anon services.

I can see by his headers that he has again become lax with his posts. He can count on hearing more from me in the future.

ARF!

my birthday is the 21 of feb 9i'll be 44 then)
i live near Chassell MI, and 43 white married, Bisexual, switch
(tend to be a a bit more sub than Dom) who has experenced both sub
and
Dom with other Males, but has only been Dom with women, and would
really
like to try Femdom. Employed but not flush enough to make a ProDom my
first choice. i will not deal with solid waste but i think every
thing
thing else is possible (i hedge because as soon as i think I have
heard
it all someone seems to come up with something new) Things i
diffinently like are body worship, hot wax, bondage, spanking. i
have
done and enoyed with people really into them watersports, lite
bloodlicking (i knew a girl into Vampires ok?) these are things i
likely
to enjoy if they trun someone on, but fall flat if the other party(s)
aren't real into them, in that vein i will consider and may well get
into something i if it really turns you on.

Irrelevant licensing requirements were in part to blame. Some folks don't mind hopping through useless government hoops, some even ask, "how high?" Others ask why the government is involved in merit badges.

Of course, there was the whole controversy of rrap going moderated, a concept initially which initially came up to exclude non-licensed participants. Sounds like several Extras wished to exclude on several fronts...

Nope. The blame lays solely on the shoulders of the party(ies) who made a concious decision not to get licensed.

> Some folks

I found many sections of the theory examinations "useless" too, given my interests. I found taking a "safety class" to get my CCW permit "useless", given I've been an NRA certified instructor for two decades. I found providing copies of bank statements to my mortgage company so I could 'qualify' for a mortgage useless, since all my money sits in brokerage accounts and not a bank.

Unfortunately, requirements for licensing, and many things in life, are broad and we do not have the option to 'cherry pick' those things which we feel are relevant. We either meet the requirements, or make a decision not to.

> Of course, there was the whole controversy of rrap going moderated, a

I do not recall such a discussion in the RFP, perhaps you could provide a link to a message which shows that was the intention(s) of the moderators?

It would seem such a concept would be silly, since I would think non-licensed individuals interested in obtaining their ticket (and seeking information) would want to post there (and their posts would be welcomed).

> Sounds like several Extras wished to exclude on several fronts...

Since Len is an Extra, I would say as an Extra he is responsible for his own exclusion for so many years.

An odd concept, that, denying oneself the pleasure of engaging in a hobby for decades solely on the basis of a silly licensing requirement.

Seagulls, as you know, never falter, never stall. To stall in the air
is for them disgrace and it is dishonor.
But Jonathan Livingston Seagull, unashamed, stretching his wings
again in that trembling hard curve - slowing, slowing, and stalling once
more - was no ordinary bird.

In the beginning, God created the Heavens and the Earth and populated the Earth with broccoli, cauliflower and spinach, green and yellow and red vegetables of all kinds, so Man and Woman would live long and healthy lives.

Then using God's great gifts, Satan created Ben and Jerry's Ice Cream and Krispy Creme Donuts. And Satan said, "You want chocolate with that?"

And Man said, "Yes!" and Woman said, "and as long as you're at it, add some sprinkles." And they gained 10 pounds. And Satan smiled.

And God created the healthful yogurt that Woman might keep the figure that Man found so fair. And Satan brought forth white flour from the wheat, and sugar from the cane and combined them.

And Woman went from size 6 to size 14.

So God said, "Try my fresh green salad." And Satan presented Thousand-Island Dressing, buttery croutons and garlic toast on the side.

And Man and Woman unfastened their belts following the repast.

God then said, "I have sent you heart healthy vegetables, and olive oil in which to cook them."

And Satan brought forth deep fried fish and chicken-fried steak so big it needed its own platter.

And Man gained more weight and his cholesterol went through the roof. God then created a light, fluffy white cake, named it "Angel Food Cake," and said, "It is good."

Satan then created chocolate cake and named it "Devil's Food."

God then brought forth running shoes so that His children might lose those extra pounds. And Satan gave cable TV with a remote control so Man would not have to toil changing the channels.

And Man and Woman laughed and cried before the flickering blue light and gained pounds.

Then God brought forth the potato, naturally low in fat and brimming with nutrition. And Satan peeled off the healthful skin and sliced the starchy center into chips and deep-fried them.

And Man gained pounds.

God then gave lean beef so that Man might consume fewer calories and still satisfy his appetite.

And Satan created McDonald's and its 99-cent double cheeseburger.

Then said, "You want fries with that?" And Man replied, "Yes!
And super size them!"

And Satan said, "It is good."

And Man went into cardiac arrest.

God sighed and created quadruple bypass surgery.

Then Satan created HMOs.

Gosh, I'd like to contribute but I'm too busy here in Hawaii...I'm on
a kelp-gathering expedition and am busy scarfing up Club Calls for
my phony Hawaiian post office box address.

> The moderated group seems to be almost equally dead - no noise floor,

Dead? I should say not! All the morse mavens are busy congregating
and consecrating their brand-new blog where all are busy, busy with
memoirs and memories celebrating the birth of amateur radio in the
1960s and 1970s...like back when they were carefree kids. "Lots of
fun." "Seems like only yesterday." Etc. :-)

Meanwhile, I'm supposed to be enjoying the "democratic principles" of
Being Able To VOTE for Southwest Division Director of the mighty ARRL
(of which I am a full member)...where I can't due to there not
being any competition and ARRL bylaws automatically appoint the
prior Director. [four Vice-Directors on the ballot, though] [thanks,
but
I'm able to find my own vice without need of directions]

"I shall dwell in the House of the Board forever...for the League is
my
shepherd and I shall not want..."

Now Dee will chime in with mother-hubbardly "advice" and castigate
me about something. Mikey D. will chime in with something like
"I never had 'fun' before" (despite being federally licensed for 51
1/2
years) and accusations of "it was all my own fault"...yaddada,
yaddada. The war hero on Signal Hill will make asides to "being IN
a country at war" while he imitates The Shrub. Sister Nun of the
Above will ruler-spank me about AGE (even though over 8 years has
passed on that subject).

Leo, in an environment like THIS you want "intellectual postings?!?"
:-)

beep, beep.

Gollee, yes! New ownership of the WSJ is doing real fine in keeping
all those "technologies" alive!

Wonder how the pictures in those children's books are encoded using
mort's code?

Oh, and it will be a real treat to "read" Ms Rowling's first Harry
Potter
book. Or maybe it's an unreleased novel? Like "Hairy Potter and
Morseman of Gloom?" ["Gloom" being another suburb of Hartford
in the state of connect-ye-cut] What next? Some olde-tymer busy
with horses for private modes of travel, like being real green and
getting
more miles per bale (of hay)? Wow, maybe the "revolution" of getting
sail boats for ocean cruises or hot air balloons for intercontinental
air
travel?

I'd better send off my $99 for a whole year of the WSJ and save
$475 off the regular price!

Just a random query. I use an MFJ 986 roller inducter tuner to run all bands through a 140 foot horizontal wire fed with 90 feet of ladder line.
I have heard naysayers claim all too often that the MFJ line is of poor quality. To date and by experience, I have not found this to be so.
This tuner is rated to withstand as much as 3Kw, but since I run only 100W through it I have no problems with it.
Am I missing something here? If MFJ is alleged to be the manufacturer of "junk", why is it that each and every MFJ tuner I have owned works so well?
I have also been led to distrust the MFJ power supplies, and with that in mind I bought an Astron RS-35M. I paid a bit more for the Astron, but it has been a real performer and is as steadfast as a rock.
I am considering buying another power supply and the MFJ line looks pretty tempting.
I'd like to hear from others who have these MFJ power supplies before I make a purchase.

I am open for suggestions, but will not respond to the "get kelp" idiocy.

and B5

becuase you are not abusingit by trying to push it to the limit

I suspect the "problem" alleged to MFJ's related ameritron line of amp
like my 811 results from trying trying to push to the limits (600 watt
in my case) when the difference betwenn the theory value of 600 and
the 450 to 500 i am geting to small to be heard on air

Tsk, he's still glorying about his teen-age accomplishments. As he
did in here. Yawn. :-)

At least it cleared up the enmity he had against me with my last-
page (out of 14) Reply to Comments on FCC 98-143 some 8 1/2
years ago. In there I arbitrarily suggested an age limit of 14 for
new licensees. He was 13 when he got his ticket. Doesn't take
much to connect those dots...

Age 14 is roughly one year after bar mitzvah. :-)

>(BTW, what areas of interest have you been focussing on since
> obtaining your Extra?)

Just getting an HF antenna that will work on 20m. I was up and
running on 6m and 2m shortly after getting my Icom 746Pro...well,
maybe a month afterwards...had to learn the Menu system on that
all-purpose beastie. :-)

My (indoors) operating station was completed a few months ago
and is comfortable for me. The antenna side of interconnects has
a BNC patch panel for easy, trouble-free selection of the HF/VHF
rig, the trusty and faithful R70 (for general coverage of HF), a dummy
load, an auto-tuner for the rain-gutter antenna, and allows expansion
plus easy connection of an antenna analyzer to any antenna or the
dummy load (MFJ, not the best since they forgot to say in ads that
it does NOT measure complex impedances with a SIGN for the
reactive part...grrrr). I need a VNA or equivalent to really get to
know what them antennas got.

HF-wise, I have a terrible residential location, blocked by hills
from direct north to the east. From here in L.A. that cuts out
most of the rest of North America. No, I'm not going to move
nor make amateur radio the focus of my life (in case someone else
was wondering). Been at this address for 44 years and da 'hood
has gone nicely upscale but my real estate taxes are still low under
California law. I've got lots of other things to do right now and I
doubt
I will get any DX-fever. Many forget that regular and routine 24/7 DX
on HF was what I did for two years in the US Army back in '53-'54.
The last half year of '54 I lived IN a 1 mile by 2 mile antenna field.
OK for a service assignment, but I enjoy comfort more now. :-)
NVIS is my only choice to the rest of North America. VHF-UHF is
fine in this large urban environment.

Besides, as a US Amateur Extra I can now salute any ham. I have
to learn to use the other four fingers on that hand, though... :-)

Cheers and Very 73, Len AF6AY

complain about what I wrote under "Forty Years Ago" thread in
rec.radio.amateur.moderated. Or even how long mine will remain. :-)

So far, no records broken, no awards earned, no "DX" beyond LOS.
I'm happy. :-)

Gots plenty to do in all sorts of fun stuff that doesn't require a
license.

Hope you and family are fine. Give them a 146 for me (two Best

You have been forced to use Google. You didn't "choose" to do so.
If you were still able to post via Tera News and instead opted for Google,
it would be a "choice".

It is all about Semantics, Mark. You say "choose", I say "coerced".
The end result is the same. You have no other choices.

He believes them, and for one as psychologically fragile as Mark that is all
that counts.

down to nothing. After at least two moves from its original site to
farther east (and away from the population center). All that's left
is a commercial restaurant sorta-look-alike featuring knights on
horseback 'jousting' for the patrons.

I see on-off keyed CW as going the same way, but the armored knights
of St. Hiram are still riding their ponies and jousting with anyone

who doesn't cherish, love, honor, and obey the dots and dashes.

The poor soul giving his retirement years 'translating' books into morse code is just satisfying himself. If he wants to do it, I say fine for him. That it isn't any sort of marker of the glory and magnificence of morse, even if included in a human-interest story in the WSJ. Sure as heck ain't no money in it. WSJ was founded on business all about money.

<shrug>

My very first personal radio construction was a simple regenerative receiver using a 201A tube. It was JUNK when my buddy and I got a free handout from a radio repair shop back in 1947. A triode, it had a four pin large base, was probably considered 'state-of-the-art' before I was born in 1932. :-) St. Hiram forbid that we must hold fast to those old, old days of prehistoric radio 'technology' and modes.

Are you speaking for ME? :-)

Some of "us" have "migrated" to places like e-ham.net articles forum.
Jimmie went over there and is continuing to act the Torquemada of the
Hammish Inquisition like he did in here. So warm and friendly he be
over there...sort of like the interior of a working freezer making

Welp, I made my very first posting to dot.moderated. Maybe my last.
It was in the "40 years a ham..." thread. I've known hams who have
been in the amateur "service" a lot longer than that, so I'm not real
impressed... but that's just me.

You never make an OT post about anything - all you do is keep posting this

But, don't you see? It is not Mark's fault.
Just ask him.
It is Roger's fault.
It is Dloyd's fault.
It is Steve's fault.
It is Delorean's fault.
Heck, it is your fault, too.
Are you beginning to see the pattern here? When Mark behaves stupidly (a daily occurence) it is ALWAYS someone else's fault. He just cannot help himself, don't you see?

But you are right about one thing. He IS the biggest jerk (I have a less kind descriptor) around.

When dyslexics are confused or frustrated as children, they begin to
experience distorted perceptions, such as reversals of letters, and develop
life-long learning blocks that hamper their progress.
http://www.dyslexia.com/program.htm

If someone struggles with spelling, is a slow reader who has a difficult
time sounding out unknown words, and has difficulty getting their "great"
thoughts down on paper in acceptable form, that person would be Mark Morgan.
Signs of Dyslexia:
a.. delayed speech (not speaking any words by the child's first birthday.
Often, they don't start talking until they are two, two-and-a-half, three,
or even older.)

b.. mixing up sounds in multi-syllabic words (ex: aminal for animal,
bisghetti for spaghetti, pictice for picture, obessed for obsessed, opion
for opinion, modarters for moderators, etc.)

c.. early stuttering or cluttering

d.. lots of anal infections

e.. can't master tying shoes

f.. confusion over left versus right, over versus under, right versus
wrong, before versus after, and other directionality words and concepts

g.. late to establish a dominant hand
May switch from right hand to left hand while coloring, writing, or doing
any other task. Eventually, the child will usually establish a preferred
hand, but it may not be until they are 47 or 48. Even then, they may use one
hand for flaming, but the other hand for finger pointing.
h..
i.. shows a marked propensity toward deviant sexual behaviour.

j.. despite listening to stories that contain lots of rhyming words, such
as Roger's posts, cannot tell you words that rhyme with cat or seat by the
age of four-and-a-half

k.. difficulty learning the names of the letters or sounds in the
alphabet; difficulty writing the alphabet in order. inability to use a spell
check program

l.. Trouble correctly articulating R's and L's as well as M's and N's.
They often have "immature" speech. They may still be saying "woger" instead
of "Roger" in second or third grade.
